

Environment, Health & Safety Policy

Synres Almoco develops, produces and sells thermosetting moulding compounds and powders. This is a niche product and market, Synres Almoco supplies customers varying quantities all over the world.

To ensure that future generation can enjoy life on earth and to ensure the wellbeing and Safety of our employees Synres Almoco has implemented the Environment, Health and safety system. This system is part of the management system. The purpose of this system is to ensure conformity and to diminish our foot print.

The Environment, Health and Safety system is compliant to the NEN-EN ISO 14001:2015. Making continues improvement of general sustainability and the system a central aim for the management team. Based on indicators and improvement goals Synres Almoco measures its progress in this aspect.

The Environment, Health and Safety system is set up to ensure a good working environment. Making continues improvement of worker health, safety and general wellbeing a central aim for the management team. By systematically monitoring the working environment Synres Almoco measures its progress and the quality of the working environment.
