Re.: Packaging of our Epoxy Compounds

Health and Safety of the people is an issue of international concern and we notice that awareness of this is constantly growing.

We as Synres-Almoco like to contribute to this and we have decided that we will limit the net weight of our Epoxy materials, packed in cartons, to 20 kg net and thereby lighten the physical burden of all working in the logistical chain.

This will be implemented on all new productions as from 01-01-2015 onwards.
Existing stocks will not be re-packed, but we trust that everybody will have understanding for this.

That this results in higher costs is evident, but we take these costs for our account and will not use this issue to increase existing sales prices.

Trust that this will be welcomed by all our esteemed customers.

Sincerely yours,
Synres-Almoco BV

G.P.G. Rolvers
Managing Director
